INAUGURAL ADDRESS

by Mayor Sumner W. Watson

Gentlemen of the City Council:

Another year in the progress of our City has passed, and as we stand upon the threshold of a new year we are confronted with a situation without parallel in the annals of our City history.

Financial conditions throughout the nation are in a precarious condition, incomes have been reduced, and the tax burden is becoming more than the average citizen can bear.

We have been chosen by the citizens of this City to "carry on" for the coming year, let us then work in harmony in order that we may do the greatest good to the greatest number of people by performing the necessary duties of the City in an efficient and economical manner, and to this end I pledge you my every effort.

SCHOOLS

I place the schools first as upon them we expend the largest single appropriation.

More money is spent upon our school system at the present time than was raised to support the entire City government a few years ago.

I am a firm believer in education perhaps on more old fashioned ideas than prevail at the present time, but I believe that under present conditions much time and thought should be expended upon this matter so as to maintain a fair balance with other departments.

ROADS, BRIDGES AND DRAINS

In the present age good roads are a prime factor in the name which a city makes for itself throughout the country. I believe some of the road projects started should be continued as far as possible this year.

The Pickering road should receive consideration, the Meaderboro road, also.

The Crown Point road should be made better for the spring travel.

The Rochester Neck road, which offers the shortest route to Dover via the County Farm, should be completed.

I also think the crossroad from Washington Street past the French Cemetery to the Gonic road should be placed in good condition.

STREET LIGHTS

The City seems to be well serviced as to lights, and I believe our Committee will attend to all matters in this department to the satisfaction of all.

SHADE TREES, PARKS, AND COMMONS

While these may seem unimportant to many, it is just these small things that make such a vast difference to the visitors of our City and I think they should be properly cared for.

FIRE DEPARTMENT

This I believe to be one of the most important departments and I think we are indeed fortunate in the wonderful showing it is making and its reputation throughout the state.

SIDEWALK DEPARTMENT

I hardly believe any comment or recommendation is necessary as this department is working upon a sound basis.

POLICE DEPARTMENT

In this department the greatest cooperation is necessary in order that the several men should be completely informed as to all work being done. I believe some filing system and cabinet should be supplied in order to preserve finger prints which are now being taken.

WATER WORKS AND SEWERS

This department being upon a paying basis and under fine management, I feel, requires no comment

from me, only to state I hope the Committee will endeavor to maintain the same high standard.

PUBLIC LIBRARY

On my visit to our Library I found that there has been a very great increase in its use during the past year, showing that our people appreciate its value. More shelving is needed here if possible, but I found our Librarian to be willing to cooperate in doing the best possible, during our present economic difficulties.

CITY POOR

Here we have a serious problem which, I believe, is being handled in a fine manner. My only suggestion would be that any able bodied person should be required to do some work, if possible, such as cleaning up Hanson Pines or cutting wood on some of the City property, for the City use.

In conclusion let me state, I do not expect we can make Rochester a modern Utopia, but what I do hope is that working together we can relieve some of the burdens, and make everyone glad to call Rochester his City.

IMPORTANT RESOLUTIONS AND ORDERS

Passed by the City Council, 1932

RESOLUTION FOR PROVIDING PAYMENT OF CITY DEBT

Resolved by the City Council of the City of Rochester: Be it resolved that the City Council of the City of Rochester be and hereby is empowered to borrow on note or notes of the City for the purpose of extinguishing the City debt such sums, and at such times, and on such terms, as in their judgment they may deem for the interest of the City so to do, and in accordance with the Ordinances of the City of Rochester, and with the Laws of the State of New Hampshire.

Passed January 6, 1932.

RESOLUTION FOR REVISION OF CITY ORDINANCES

Resolved by the City Council of the City of Rochester: That the Revised Ordinances of the City of Rochester of January, 1925, be again revised with such changes and amendments as have already been enacted by the City Council and with such further amendments as said City Council may vote to incorporate therein.

That each Member of the City Government be furnished with a copy of the same immediately after publication thereof.

Passed February 2, 1932.

RESOLUTION TO HIRE MONEY IN ANTICIPATION OF TAXES

Resolved by the City Council of the City of Rochester: That the Committee on Finance be authorized to hire in anticipation of taxes for the year 1932, a sum not exceeding \$150,000.00 to be hired at such

times, in multiples of \$10,000.00, and to be taken up at such times as the balance in the treasury will permit. Said sum to be hired on notes of the City.

Passed February 2, 1932.

RESOLUTION FOR ANNUAL APPROPRIATION

Resolved by the City Council of the City of Rochester: That there shall be raised, and there is hereby ordered to be raised, with such overlay as may be found necessary, on the polls and ratable estates within said City, \$290,802.07 to defray the necessary expense of the City for the ensuing year, which together with the sums which may be received from various sources shall be appropriated.

Passed April 5, 1932.

RESOLUTION TO RAISE MONEY WITHIN THE SPRINKLING PRECINCT

Resolved by the City Council of the City of Rochester: That there be raised by taxation within the sprinkling precinct the sum of twenty-five hundred dollars in accordance with the act of the Legislature creating said precinct.

Passed April 5, 1932.

AMENDMENT TO ORDINANCE OF DISCOUNT ON TAXES

Be it Ordained by the City Council of the City of Rochester, as follows: That Chapter XIX of the City Ordinances, entitled "Collection of Taxes," be amended by striking out entirely Section 2, and inserting in place thereof the following:

Sec. 2. A discount shall be allowed on all taxes paid in full, and on all part payments of \$100.00 or more, if made on or before the first day of August or September of each year in which they are assessed, as follows:

If paid on or before August 1st, 1½% discount.

If paid on or before September 1st, 1% discount.

Passed April 5, 1932.

RESOLUTION TO SELL LAND TAKEN FOR
TAXES

Resolved by the City Council of the City of Rochester: That the Mayor be empowered to sell at public auction any property for which the City of Rochester holds a Tax Collector's Deed and which has been recorded as such by the Register of Deeds of Strafford County, at such time as will best serve the interests of the City.

Passed May 3, 1932.

RESOLUTION TO DISCONTINUE ROADS

Resolved by the City Council of the City of Rochester: Whereas there are many highways about the City of Rochester for the use and maintenance of which there is no public demand and whereas the same are seldom, if ever, used, thereby placing upon the City of Rochester an unjust burden.

Now, therefore, be it resolved: That the following portions of highways within the City of Rochester be discontinued, and made subject to gates and bars:

(1) A certain highway situate and being on the Westerly side of the East Side State Highway and known as the Milton Road running in a Northwesternly direction from the Westerly side of the State Highway across the tracks of the Boston and Maine Railroad at the foot of Card's Hill by the land of Charles McDuffee to the Chestnut Hills road; that portion of said highway lying between the East Side State Highway and land of Charles McDuffee to be discontinued and made subject to gates and bars at the Easterly end thereof at the East Side State Highway, and on the Westerly end thereof at the land of Charles McDuffee;

(2) A certain highway known as the Four Rod Road in said Rochester and being and running from the Farmington Road in a Westerly direction to the Ten Rod Road, the whole thereof to be discontinued and made subject to gates and bars at its junction with the Farmington Road and the Ten Rod Road;

(3) A certain highway in said Rochester situate and being on the Northerly side of Washington Street

in said Rochester, and leading from said Washington Street in a Northerly direction to the Central Road known as Road No. 104, being the main highway from Rochester to Strafford or Concord, at Page's Hill; that portion thereof beginning at said Central Road and running in a Southerly direction to the land of Martin Brock and Louis H. McDuffee to be discontinued and made subject to gates and bars at its junction with said Central Road and at the land of said Martin Brock and Louis H. McDuffee;

(4) A certain highway known as the Weymouth Brook Road or Old Back Road leading from Summer Street in East Rochester Village in a Southwesterly direction to land of one Isaac Jacobs, that portion thereof to be discontinued that leads from the Southerly side of land of Isaac Jacobs to the Salmon Falls Road, and made subject to gates and bars at the Southwesterly side of said Jacobs' land and at its junction with the Salmon Falls Road.

Passed May 3, 1932.

RESOLUTION RELATING TO ITINERANT VENDORS

Resolved by the City Council of the City of Rochester: That the privilege of using the streets in the City of Rochester, be denied to itinerant vendors, until such times as conditions warrant that these vendors are an advantage to the citizens of this locality.

Be it also resolved that the Mayor, City Marshal and City Clerk are instructed to carry out the provisions of this order and all requests from travelling vendors be unconditionally refused.

Passed June 7, 1932.

RESOLUTION TO APPOINT SEALER OF WEIGHTS AND MEASURES

Resolved by the City Council of the City of Rochester: That whereas Chapter 161, Section 20, of the Public Laws of the State of New Hampshire provides that in cities of not less than ten thousand population a Sealer of Weights and Measures shall be appointed by the Mayor, with the consent of the Coun-

cil, and whereas the City of Rochester by the last census has more than ten thousand population,

Now, therefore, I, Louis H. McDuffee, Mayor of the City of Rochester, hereby appoint Charles E. Goodwin to act as City Sealer of Weights and Measures, to serve until January 1, 1933.

Passed July 5, 1932.

AMENDMENT TO ORDINANCE CREATING
OFFICE OF SEALER OF WEIGHTS
AND MEASURES

Be it Ordained by the Mayor and City Council of the City of Rochester: That Chapter 25 of the City Ordinances be amended by adding the following:

Sec. 6. A sealer of weights and measures for the City of Rochester shall be appointed by the Mayor, annually in the month of January, and approved by the City Council.

Sec. 7. No indebtedness shall be incurred by the Sealer of Weights and Measures beyond the amount appropriated by the City Council for carrying on the duties of said City Sealer of Weights and Measures, unless specially authorized by the City Council.

Sec. 8. The City Sealer of Weights and Measures shall submit a report to the City Council at the close of each fiscal year, showing the expense of the department in detail, together with such further information as may be pertinent or desirable.

Sec. 9. The City Sealer of Weights and Measures shall receive in full payment for all services rendered in the discharge of the duties of his office the sum of one hundred dollars balance of the year 1932, payable in equal monthly installments.

Passed August 2 1932.

RESOLUTION ACCEPTING STATE AID FOR
ROAD BUILDING

Resolved by the City Council of the City of Rochester: Whereas in accordance with the proclamation

issued by his Excellency, Governor John G. Winant, dated the eighteenth day of August in the year one thousand nine hundred and thirty-two, the City of Rochester is entitled to receive from the State a loan of eighty-seven hundred one dollars and fifty cents without interest, and

Whereas by a communication dated August 26th, from the State Highway Commissioner, Frederic E. Everett, suggestion is made that this sum be expended on the Farmington Road.

Now, therefore, be it resolved that the City of Rochester now borrow from the State of New Hampshire the sum of eighty-seven hundred one dollars and fifty cents, and give its notes therefor;

Be it further resolved that the sum so obtained from said State of New Hampshire be expended by the Highway Department of the City of Rochester in rebuilding and improvement of said Farmington Road.

Passed September 6, 1932.

RESOLUTION TO TRANSFER BALANCES

Resolved by the City Council of the City of Rochester: That if found necessary in closing the accounts of the year to transfer from a department where there is a balance to a department where there is a deficit the Committee on Finance be authorized to make such transfer.

Passed December 8, 1932.

RESOLUTION TO PRINT CITY REPORTS

Resolved by the City Council of the City of Rochester: That the City Clerk be instructed to prepare for the printer all matter that is to go into the annual report. And the Committee on printing be instructed to attend to all matters connected with the printing of said report.

Passed December 8, 1932.

REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT

To the Honorable Mayor and City Council:

In rendering my report of the Fire Department for the year ending December 31, 1932, I would state that we have been very fortunate in not having many serious fires, but we may not always be so fortunate, therefore, it stands us in hand to be prepared for whatever emergency may arise by having up-to-date equipment.

There have been 11 bell alarms, 136 still alarms, mostly chimney fires, 41 brush and forest fires in the City proper; 6 bell alarms, 5 still alarms, 1 brush and forest fire at East Rochester; 6 bell alarms, 10 still alarms, 5 brush and forest fires at Gonic; making a total of 221 alarms for the year.

Out of town calls: We assisted Dover, January 3 and Barrington, December 25.

The permanent men at the fire station have been called to 15 places where some parts of the buildings were on fire, and 13 automobiles which has saved many bell alarms this year.

The amount of property involved in fires is as follows:

Value of buildings	\$361,558 78
Insurance on same	298,383 78
Losses paid	18,498 82
Value of contents	611,559 50
Insurance on same	531,439 50
Losses paid	13,292 44

I will recommend that the City purchase another pumping car with a booster pump on it. We can still see that a pump of this kind would have been a great help in the farming district this year.

I will also recommend that the City purchase 1,500 feet of 2½-inch rubber lined double jacket hose.

I think the City would be wise if it purchased some new fire alarm boxes this year to take the place of some of the old boxes.

In behalf of the Fire Department, I will take this opportunity to extend our sincere thanks to all those who have been so kind and have given to the Department to show that they appreciate its good work.

In behalf of the Board of Engineers, I will take this opportunity to extend our sincere thanks to all the Officers and Members of the Fire Department for the promptness in which they have discharged their duties during the past year.

In conclusion I will take this method to thank the Mayor and Fire Committee and Members of the City Council for what they have done for the Fire Department during the year just ended.

Respectfully submitted,

JOHN F. NUTE,
Chief Engineer of Fire Department.

REPORT OF CITY SOLICITOR

To the Honorable Mayor and City Council of the City of Rochester:

Your Solicitor is glad to report that the only case pending in the Superior Court in which the City of Rochester is interested is the action brought by James McAllister against the City for gravel taken from his bank on the Farmington Road.

A difference of opinion exists as to the amount of gravel for which the City of Rochester should pay. This case will come on for a hearing at the February Term, 1933, unless sooner adjusted by agreement between the parties.

All other matters from which Court action might have arisen have been so handled by the City officials as to be disposed of without litigation.

Dated this 31st day of December, 1932.

Respectfully submitted,

GUY SMART,
City Solicitor.

Total amount expended \$16,606 85

To Old Age Assistance for the Year of 1931:

George C. Berry, October 27, 1931-December 31, 1931	\$28 80
Nellie F. Braun, October 27, 1931-December 31, 1931	71 70
Freeman K. Downs, November 23, 1931-December 31, 1931	25 00

Total for 1931 \$125 50

To Old Age Assistance for the Year of 1932:

George C. Berry, January 1, 1932-December 31, 1932	\$167 70
Nellie F. Braun, January 1, 1932-December 31, 1932	417 30
Freeman K. Downs, January 1, 1932-December 31, 1932	260 00

Charles H. Wormhood, June 22, 1932-December 31, 1932	200 10

Total for 1932 \$1,572 40

Total for years 1931 and 1932 \$1,697 90

This \$1,697.90 was given in the form of checks to residents of Rochester, seventy years of age or older, by the County Commissioners. They decide how much shall be given and to whom. No City official of Rochester has any voice in the matter. The only function of the City is to pay. This has been settled by a recent decision of the Supreme Court. The Attorney General's office has also rendered the opinion that recipients of this assistance become pauperized.

I submit that a bill which authorizes outsiders to determine how much, and to whom assistance shall be paid by our City, should be taken off the statute books as these functions should be administered by local authorities.

Respectfully submitted,

FORREST L. KEAY,

Overseer of Poor.

REPORT OF LIBRARY TRUSTEES

To the Honorable Mayor and City Council:

Gentlemen:—The Board of Trustees of the Rochester Public Library respectfully submit the thirty-ninth annual report, together with the report of the librarian and city treasurer.

The detailed report of the distribution of the money voted by the City Council and that received from the endowment funds can be found in the report of the librarian. We feel sure that all who read this report will agree that the income has been judiciously spread to meet the needs of a large and discriminating clientele.

The Board of Trustees and library employees deeply regret the passing of Sidney B. Hayes. With the exception of a short interim he had served on the Board of Trustees since 1906, and his kindly and dignified personality made a deep impression on all with whom he came in contact. We shall miss his sincere and wise counsel.

We feel that the citizens of Rochester are fortunate in having such an efficient library force, and we thank them for their continued conscientious service.

For the Trustees,

JOSEPH F. SWEET,
Secretary.

REPORT OF LIBRARIAN

To the Board of Trustees of the Rochester Public Library:

Gentlemen:—As the year 1932 is reviewed there does not seem to be any outstanding or epoch making event to report but merely a record of 306 very busy days with work well done.

All thinking citizens realize the value of the library to the community, the place which it fills in the educational and civic interests of our city, the help which it freely offers to the individual, the recreation it affords and the joy which is found in its books.

The library does not grow alone by the books which it adds, the contents of those books may add to or depreciate its value many times. Many of the 30,394 books which the library contains are obsolete and give inaccurate information. Many of these could be discarded and thus make room for new books which must be added.

In the purchase of 672 books this year great care has been exercised and every class of reader and student considered. Many valuable reference books and 35 unbound volumes of the New England Historical and Genealogical Register have been purchased from the John McDuffee fund. From the Jennie Farrington fund 25 good books for children have been purchased.

The additions of the year have proved popular, as shown by the circulation and have called forth many words of commendation, especially from those who come to us through the summer from larger cities. Rochester readers have been able to keep up with their reading friends wherever they may be.

That Rochester people appreciate the library is shown by the increase of 6,687 in circulation. The total number of books given out being 94,919. 90,770 of this number were given out at the main library.

One great source of satisfaction has been the use made of the library by the unemployed. Many a bad moment must have been tided over by the books and magazines which they could borrow and by the hours which they could spend in the reading room. 17,511 readers and students have been counted, 149 more than last year. Many of these readers have come day after day and spent several hours reading.

There has been very little time for new projects this year and scarcely time to keep up with those already begun. The summer reading contest was discontinued as even the very young readers must grow weary with the things they are obliged to read during the school year. Many of the interesting and worth while books were kept on display during the summer and resulted in much good reading by the young people.

In May of each year an inventory of the entire library is taken. Last year four books were missing from the shelves and this year thirteen. Although the staff feel very sure who is responsible for this loss they cannot accuse. "A guilty conscience needs no accuser" and we are hoping that some day we may find these books in the vestibule of the library or even on the steps. We are greatly indebted to Mr. C. E. Goodwin for his kindness in helping us to collect delinquent books.

The first hour of each library day is given up to repairing and putting into condition all books returned the day before, crediting and placing periodicals received in the day's mail, preparing back numbers for circulation and making out reports of the previous day's work. The rest of the day is taken up with circulation, satisfying the demands of the readers and work with the school pupils. The staff are always happy if time can be found between the busy moments to work on new books, insert cards in the catalogue, prepare books for the bindery, select books for the branch libraries, do necessary filing or attend to the great amount of clerical work which is always waiting. Every library minute has its duty and the staff are always happiest when they are busy.

Great appreciation is due all the workers at the library, even the accommodating extra assistants who

come in to help us when needed. It is by good team work alone that the work of a busy year has been carried on without friction.

I would at this time again express to you gentlemen of the Board of Trustees my appreciation of your kindness and speak of my great regret at the passing of Mr. Sidney B. Hayes, one of our most honored trustees.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Members of the School Board:

I herewith present the forty-first annual report, and the tenth under my supervision.

I wish to call to your attention only the major activities of 1932 and a few of the problems that will confront you in 1933.

SCHOOL EXPENDITURES

The most important problem before public officials today is how to carry on the present municipal activities at a reduced cost. The school department has, during the past year, reduced its expenditures \$4,200. This reduction will care for the interest on the Maple Street Schoolhouse Bonds and assist other city departments which have had unforeseen expenditures.

SALARIES

Not for several years has there been so much discussion upon the subject of municipal salaries as at present. Therefore, I have prepared the following information in order that you may have available definite facts concerning this subject.

(1930-31)

For United States—Median Salaries.

For N. H. and Rochester the last six positions are average salaries for 1932.

	United States Pop. 10-30,000	N. H. Cities	Rochester
Superintendent's Salary	\$5,149	\$4,692	\$4,000
Headmaster's Salary	3,613	3,509	3,150
Prin. Elementary Schools	1,742	1,575	1,290
High School Teachers	1,876	1,742	1,716
Elementary Teachers,	1,428	1,230	1,128
School Janitors	1,347	1,293	921
School Nurses	1,798	1,447	1,500
Sec. to Supt. of Schools	1,453	1,225	1,100
Music Supervisor	2,043	2,022	1,200
Head of Mechanic Arts	2,365	2,460	2,350
Head of Home Economics	1,832	1,617	1,500
Attendance Officer	1,215	989	500

Thus, from the above table, one can immediately discover that Rochester has a lower salary schedule than cities of our size, as compared with the country and as compared with other New Hampshire cities.

Also from the state survey we find the following: "The experience of the Rochester teachers as a whole suggests that Rochester has a rather mature and experienced group of teachers. The median experience for high school teachers being seven years and the median experience for the elementary teachers is eleven years." Furthermore, the training of our teachers compares favorably with other New Hampshire cities.

STATE SURVEY OF ROCHESTER SCHOOLS

The school board voted on April 14 that the Department of Education make a survey of the Rochester schools. This survey was made in October. The report covered:

- 1—Teachers
- 2—Elementary School Opportunities
- 3—Secondary School Opportunities
- 4—Educational Results
- 5—Buildings
- 6—Costs

As this report covers thirty-eight typewritten pages and as the major activities have been printed in the Rochester Courier, it seems necessary to give only a brief summary in this report. The school boards for the next few years should make use of its recommendations.

I. *Teachers.* The report stated, "The indicated experience of Rochester teachers as a whole suggests that Rochester has a rather mature and experienced group of teachers. Since the ratio of men to the total teaching personnel in the country as a whole is about 17% in the secondary schools, it would seem that as vacancies arise Rochester might well employ more men in the future.

The special teachers, supervisor of music, the school nurse, the opportunity teacher, and the attendance officer are all doing good work.

The circular letters, the teachers' meetings, the professional reading courses, the summer school courses as advocated by the superintendent of schools are commendable.

The relation between the superintendent and teachers was friendly, cooperative and helpful."

II. *Elementary School Opportunities.* "Rochester's record of slow progress is much better than the record of 37 cities studied. On the other hand, her record for rapid progress of pupils is much slower than for this group of cities."

Deputy Commissioner May recommends that "While enrichment of work is in most cases better for the bright pupils than rapid progress through the grades, it is suggested that careful consideration be given to the possibility of rapid progress for the following pupils: (1) over-age pupils of average ability; (2) bright children for whom an adequately enriched and broadened curriculum is not provided; (3) bright pupils who will have to leave school at an early age."

"In general the classes are not too large for effective instruction; the average enrollment per regular teacher in the elementary schools was 33. Six teachers have an enrollment of over forty pupils.

The record of attendance and tardiness was good. The per cent. of tardiness for the elementary schools was 97.

The superintendent of schools has developed a very effective system for receiving, storing and distributing books and supplies."

III. *Secondary School Opportunities.* "The school board and superintendent are to be commended for the establishment of good curricula in commerce, home economics and mechanic arts. The present enrollment in the commercial curriculum suggests that some of these pupils might find in the mechanic arts or domestic arts curriculum work better adapted to their interests, needs and future work."

The high school enrollment at the time of the survey was 385.

"The teaching load of only three teachers was above the accepted load for high school teaching. It should be noted that many teachers are carrying additional duties which require the expenditure of time and effort by the teacher."

"The percentage of failures in the following subjects should be reduced: English IX, Latin IX, French I, Algebra IX, History of Civilization IX, Physics, Stenography I, and Shop Math. X. A conservative estimate is that failures in each subject should, as a rule, not exceed seven per cent. and in most cases should be below seven per cent."

"Several varieties of valuable records and report forms were showed to me by the headmaster. They indicate that careful pupil accounting is carried on in the high school.

"The per cent. of attendance in Rochester high school in 1931-32 was 97.5, and the record of tardiness, two tenths of tardiness per pupil. This is an excellent record.

"The record of Rochester high graduates during the first term or semester at colleges and normal schools is a very commendable record and indicates that Rochester high school gives adequate preparation for post-secondary institutions.

"The spirit of the students in the high school, assembly, corridors, and classrooms is commendable.

"The holding power of a school may be measured by the extent to which pupils remain in school after reaching the age limit of compulsory attendance. Rochester's record of holding power of pupils in these ages is much better than that of any of the 164 cities studied."

IV. *Educational Results.* "The record of the pupils on the test in arithmetic computation and reasoning is very commendable.

"Spelling ability was tested and it is recommended that this phase of spelling be emphasized.

"The results in silent reading, the subject of which is of so much importance in enabling the child to work effectively in school, were commendable.

"Under the direction of the superintendent of schools, several standardized tests have been used in the elementary and high schools in recent years. Careful study was made of the results of these tests."

V. *Buildings*. "The buildings were scored by two persons. In the Maple Street structure, Rochester has a very fine, modern elementary school building. It is a credit to the city. The landscaping of the grounds about the Maple Street building may serve as a model for the beautification of the grounds around the other elementary buildings.

"Though these other buildings have low scores, it should be remembered that they are all clean and sanitary structures in which children are learning and living in happy cooperation during the school day.

"The next improvements in certain of the elementary buildings may well include the improving of lighting and ventilation in some rooms, the retinting of walls, replacing of ceilings, the placing of adjustable desks in all the rooms, and landscaping the grounds. A good gymnasium and play field are needed for the high school.

"All of the buildings and grounds showed the results of efficient janitorial service. The grounds were commendably free from litter."

VI. *Costs*. "For the school year 1930-31, the latest year for which comparable data are available in this office, the median per pupil public high school cost in relation to average membership for administration, fixed charges and per capita tax was \$125.61. Rochester's per pupil cost was \$115.01. Only *three* of the eleven cities had lower costs than Rochester in this item.

"The median per pupil cost of public elementary schools for the same year was \$83.66. Rochester's cost was \$66.41. Only two other cities had lower per pupil costs on this item.

"For 1931-32, the average cost of high school instruction in public senior high schools was \$89.79. Rochester's cost on this item was \$83.70. Only two of the eleven New Hampshire cities had lower comparable costs.

"The facts given above indicate that Rochester's school system has been economically administered."

CONCLUSION

"In concluding this report I desire to express my appreciation for the ready cooperation of Superintendent Buker, his secretary, Mrs. Cheney, Headmaster Fraser, the principals of the elementary schools and all the teachers.

"The facts presented in this report justify the conclusion that Rochester has a good system, well supervised, effectively and economically administered. A fine professional spirit was found among superintendent, headmaster, principals and teachers."

Respectfully submitted,

WALTER M. MAY,

Deputy Commissioner.

VOCATIONAL COURSES

The mechanic arts department has had the past year the same instructors: Messrs. Hanson, Stevenson, and Grierson. Mr. Hanson has taught machine and electrical shop, shop organization and mechanical drawing. Mr. Stevenson has had charge of cabinet making, pattern making and mechanical drawing. Mr. Grierson has taught in the high school two classes of shop math., two classes shop physics, mechanical drawing, and woodworking in grades seven and eight. There are 54 high school boys taking this course, 11 are tuition boys; and 129 seventh and eighth grade boys.

We have received \$1,764.69 from the state to support this curriculum. In other words this state aid pays the salary of one instructor. Besides we have received the tuition from eleven boys (\$920) who would have not likely attended Rochester high school were the mechanic arts curriculum not offered. The expenses in this department have been reduced \$5,077.88 under Mr. Hanson's leadership.

There are 54 high school girls taking the domestic arts work, 35 of these are registered in other courses

in the high school. There are also 109 seventh and eighth grade girls taking this work.

The domestic arts curriculum is taught by Miss Lola Meader and Miss Ruth Caverly. Miss Meader teaches the high school subjects: Textiles and Clothing, Family and Its Members, Home Its Care and Management, and Foods and Nutrition. Miss Caverly teaches cooking and sewing to seven classes in grades seven and eight.

The commercial work is taught by Mrs. Stevenson, Miss Wilkins, and Miss Bailey. There are 186 pupils majoring in this curriculum. Mrs. Stevenson teaches four classes of bookkeeping, seven periods of office practice, and devotes one period per day to Student Activity. Miss Wilkins has four classes of shorthand, one of economics and one period is devoted to the high school register and attendance. Miss Bailey has four classes of typewriting, one of commercial law and one of business arithmetic. Miss Ruth Caverly teaches one class of commercial arithmetic in this curriculum.

Rochester is very fortunate in having such a group of vocational teachers to carry on this practical education.

PLAYGROUND ACTIVITIES AT HANSON PINES

The supervision of the summer playground activities at Hanson Pines was conducted successfully by Maurice O'Leary.

The average daily attendance for the eight weeks was seventy-five. The major activities carried on were track and field events, tennis, swimming and horse-shoes. Fifteen children were taught to swim.

Many adults availed themselves of the grounds for recreational purposes.

MUSIC

Miss Alice Norton, supervisor of Music, teaches one lesson per week in each of the elementary grades, leads the high school orchestra, and conducts a boys' and girls' glee club in the high school. The work in this department is carried out as outlined in the State Program of Studies. The victrola is used in several

of the rooms. In the primary grades rhythmic bands have been formed.

GENERAL INFORMATION

1. The first grade teachers and the superintendent are convinced that the entrance age should be raised as a certain per cent. of our pupils are not mentally or physically developed to do first grade work. This would reduce the size of first grade classes for 1933. Non-promotions are costly.

2. At the Maple Street School an additional teacher is needed. Each teacher would then have a single grade. Due to the increased number of pupils in this section of the city I hope this matter will have careful consideration.

3. From both an educational and economic standpoint an opportunity teacher is needed in grades five and six. This teacher would assist a larger number of pupils to progress at a normal rate.

4. The work at the Hanson's playground should be continued during the summer months for two rea-

sons: (1) from the safety standpoint, and (2) a larger per cent. of our children will be obliged to remain in the city and therefore need constructive supervision. This work was efficiently supervised last summer by Mr. Maurice O'Leary at \$20.00 per week.

5. This year we have had several arithmetics, geographies and music books rebound. This is an economic measure.

6. The transportation committee has made several changes during the year. The cost of transportation for 1933 will be about \$600 less.

7. The miscellaneous income for the year was larger than estimated. Therefore the school department had a balance of \$2,425.85. The tuitions, the Smith-Hughes Aid, and the dog tax were larger than previous years. This is the largest amount returned to the general account for several years, if ever.

8. Ten years ago our tuitions were \$624.15. In 1932 they amounted to \$3,248.77. Good schools bring to Rochester outside pupils, and these tuition pupils are an economic aid and educational asset to the school system.

9. The Maple Street building has been an educational asset in many ways to the city. One hundred dollars has been withheld from A. F. Smiley Construction Company due to unfinished minor adjustments.

COST OF HIGH SCHOOL INSTRUCTION

Average Cost Per Pupil

City	Year Ending June 1931	Year Ending June 1932	Decrease

Rochester	92 10	83 70	8 40
Somersworth ..	104 09	104 68	Increase .57
Average ..	97 31	88 74	

The past year we find Rochester ninth on the list as to the cost of high school instruction. Rochester's cost per pupil this year is \$8.40 less than last year.

COST OF TEXTBOOKS AND SUPPLIES

1931-1932

	State	Rochester
Elementary Schools, Cost of books		
Average per pupil	\$1 19	\$1 03
Elementary Schools, Cost of supplies		
Average per pupil	1 41	1 24
High School, Cost of books		
Average per pupil	2 87	2 66
High School, Cost of supplies		
Average per pupil	3 36	4 00

The cost per pupil is lower than the state in all cases except for high school pupils. This higher cost for the high school is because Rochester figures its mechanic arts and domestic arts supplies under the general heading of supplies.

Tuition rates, 1932-33: High School, \$83.71 per year; Elementary, \$44.35 per year.

RECOMMENDATIONS

1. That, under normal conditions, an additional teacher should be added at Maple Street School due to the increased number of pupils in this section of the city.

2. That the entrance age be raised, due to the inability of about twenty per cent. of the pupils to do first grade work.

3. That, under normal conditions, an opportunity teacher be secured for grades five and six, and thereby reduce retardation in the upper elementary grades.

4. That the standards required for admission to the teaching force be maintained.

5. That no changes in the curricula be made, for such changes mean additional costs in books and supplies.

6. That the 1933 school budget be carefully studied in order to meet existing conditions.

CONCLUSION

I wish to express to you in behalf of our teachers and school employees our appreciation for the assistance your body has given us.

Personally I want to thank you, the teachers, and school employers for the aid given me.

Respectfully submitted,

WILLIAM H. BUKER.

SCHOOL PROGRESS

I feel that progress has been made along the following lines:

I—We have strengthened our mathematics and science departments.

II—We have completed an efficient student activity association under the direction of Mr. Hanson.

III—College reports indicate that our graduates are doing very satisfactory work.

IV—During the past year the objectives outlined above have been met more successfully than ever before.

V—We had the best record for attendance and tardiness of any city high school in the state.

VI—The character and quality of the instruction has improved.

VII—Teachers have cooperated splendidly in carrying on a program of economy in the use of equipment, supplies, time, and care of the building.

VIII—The school has succeeded in influencing more pupils to remain in school than ever before.

HONORS

The Dartmouth Medal was awarded to Ralph Witherell. The Springfield Scholarship was awarded to Dorothy Shields, now a freshman at Bates College. The Woman's Club Scholarships were awarded to Elizabeth Villanova, Donald Tripp, and Mae Otto.

GIFTS

The classes of 1931 and 1932 have presented the Student Activity Association with a combination safe and filing cabinet. The gift is greatly appreciated by the association.

RECOMMENDATIONS

I. A vocational guidance program is made especially necessary due to present day economic conditions.

II. A readjustment of the Program of Studies, to allow pupils who fail in required subjects, due to mental or physical handicaps, to take and receive credit for an elective subject.

III. No teacher is available for the library. Library books and magazines have been placed in English and History rooms where they will be available for the use of study pupils. More supplementary material should be available for study pupils.

IV. There will be an increased enrollment next year due to the fact that the senior class will again be of normal size. This will mean that more desks will be necessary in order to seat all of the pupils. The room on the third floor, now not being used, should be converted into a small recitation room and be used instead of the cafeteria and assembly hall.

V. Eleven post graduates have returned this year to obtain further preparation for college. I suggest that in the future these pupils be required to obtain an average of 75% in order to remain in school.

VI. In private schools pupils have definite hours for supervised study. I suggest to parents that they supervise definite home study hours for their children.

CHANGES

Due to the fact that it has been necessary for senior office practice pupils, also other pupils, and teachers, to work in the office, it has been very difficult to find a place for work that requires no interruptions, or for conferences with parents and pupils. I have been forced to hold many conferences in the corridors. Student Activity records have been in one of the recitation rooms. Room 5 has been made into a general office for all school activities and the present office has been made into a private office for the Headmaster for study and conferences.

I appreciate the helpful suggestions I have received from the school board, superintendent, teachers, parents, and pupils.

Respectfully submitted,

ELWOOD S. FRASER,

Headmaster.

CLASS ODE

(Tune, "Londonderry Air")

PATRICIA PEART

The fruitful years, wherein we garnered learning,
 The lore of sages and the wit of men,
 Have now fulfilled our heart's most solemn yearning
 To seek the truth and face it bravely then.
 We bid farewell but not without repining
 To classmates tried and teachers wisely proved:
 Life's bright way lures us with its glorious shining
 To follow destinies by ways we long have loved.

O happy years!—We look behind regretfully
 And o'er our shoulder at their dying sun.
 We will not turn aside from them forgetfully
 When our new dawn brings new a race to run.
 It may be that some other change of changeful fate
 Shall usher in a twilight—who can tell?—
 In which we stand once more before this opening gate
 To enter in and reunite. And so farewell.
